SUMMARY

Product Designer with experience designing web and mobile products across consumer, healthcare, and enterprise spaces. My background includes research, interaction design, wireframing, prototyping, and usability testing. I'm passionate about advocating for users, making complex experiences easy to navigate, and creating products that are clear and intuitive. I'm bilingual, collaborative, and experienced in remote work environments.

CORE SKILLS Product Design, UX Design, UI Design, Interaction Design, User Research, User Interviews, User Flows, Wireframing, Prototyping, Usability Testing, Mobile Design, Responsive Web Design, Visual Design, Cross-Functional Collaboration, Figma, FigJam, Adobe XD, AI tools, Jira, Confluence, Adobe Creative Suite.

EXPERIENCE

Freelance UX/UI Designer

2025–Present

Independent work across consumer, healthcare, and enterprise products

- Design web and mobile products from discovery to final delivery, translating business goals and user needs into flows, wireframes, prototypes, and interfaces.
- Directed a 6-week UX audit and redesign for Noah's Ark, a lost-pet recovery app, resulting in completion rates increasing from 60% to 100%, a reduction in average time to complete tasks from 4:20 minutes to 2:30 minutes, and improved customer confidence rating from 4.1/7 to 6.3/7.
- Redesigned Lino's Pharmacy's homepage, improving completion of key tasks and strategically positioning an AI HIPAA chatbot assistant as a simpler, more trustworthy place to start.

Product Designer, H-E-B

2022–2025

- Led discovery for the implementation of an AI assistant chatbot within workforce CRM/Salesforce workflows for customer service representatives.
- Validated prototypes with associates, stakeholders, management, and engineering partners, reaching a 90% completion rate during user testing.
- Identified opportunities through workshops and interviews to prioritize business goals and design objectives.
- Designed digital experiences for web and mobile platforms using Figma to create design deliverables.
- Partnered with content designers, marketing, engineering, and stakeholders to define requirements, scope solutions, and align user and business needs.

Product Designer, Dell

2020–2022

- Enhanced the B2B small business checkout flow by identifying friction points that were causing users to get stuck, increasing checkout completion by 30%.
- Improved product experiences by mapping user flows, identifying friction points, and translating insights into wireframes and prototypes for iteration, refinement, and delivery.
- Collaborated with cross-functional teams, including product, engineering, and stakeholders, to align design decisions with user needs and business goals.
- Prepared design handoffs for engineering, supporting implementation through clear specifications, interaction details, and feedback.
- Led user interviews to uncover pain points, better understand the user, and inform product decisions.

UX/UI Designer, RoverPass

2020–2020

- Streamlined calendar and checkout experience to establish a seamless path to booking.
- Created user flows, wireframes, and prototypes to explore solutions and enable cross-functional collaboration on product direction.
- Collaborated in UX discussions and prototype reviews to enable quick iteration.
- Conducted usability sessions to identify pain points and learn more about key user interactions.

Customer Experience Specialist, Spanish Department, eBay**2019 – 2020**

- Provided service to Spanish-speaking customers in a fast-paced setting.
- Communicated with customers, gathered information, resolved problems and recorded conclusions.

Lead Graphic Designer, City of Hutto**2017 – 2019**

- Oversaw branding and city marketing projects, such as a citywide rebrand as well as other design work.
- Interviewed and researched users to develop branding, messaging, and design decisions.
- Provided concepts, content design, and visual design for programs such as Magnificent 7.
- Created an award-winning branding guide that won two TAMU awards.

Web Designer, My Lead System Pro**2016 – 2017**

- Created landing pages and email assets based on client marketing objectives and conversion needs.
- Led projects through revision stages, communicating client needs and delivering successful designs.
- Participated in user interviews and platform development to enhance user experience.

EDUCATION**The University of Texas Rio Grande Valley | BFA, Graphic Design | BFA, Communication Studies | Minor, Psychology**
